DOUBLE BAR PANEL FENCES AND POSTS

ADVANTAGES

SAFE AND STURDY

The Double bar panel fence system with double horizontal wires and single vertical wires, is a good and professional fence system, offering a sturdy solution around the Sport areas. Standard system heights 3 m, 4 m, 5 m and 6 m.

Either with double bar panel mesh size 50x200 mm all the way up, or with a combination of mesh sizes 50x200 mm+100x200 mm

Optionally as well a combination with double bar panels up to 2 m, 3 m or 4 m + additional ball catcher mesh in Polypropylene up to full fencing height is available.

Polypropylene standard mesh size 100x100mm, and standard colors Green and Black. Other mesh sizes and colors on request.

COATING

Hot dip galvanized (EN ISO 1461)

Hot dip galvanized (EN ISO 1461) + RAL Polyester powder coating

Standard RAL-Colors: RAL 6005 Moss green, RAL 9005 Jet black, RAL 7016 Anthracite grey (other RAL-colors on request).

COMPLETE SYSTEM

In combination with the Halsang gate range of Swing gates, Sliding gates and Turnstiles you have a total solution for the Sport areas perimeter protection and access control.
